

YOUR SHOWROOM APPOINTMENT

What to bring

STEP 01

Gather a few details

A few things help us share the right options and pricing.

Photos

Photos of your windows, in good lighting, capturing the space around them

Rough sizes

A rough measurement is all we need for a quote. We'll take exact measurements later.

Your finishes

Tell us what's around the windows, like paint, countertops, flooring or furniture. Photos or samples work great.

Blueprints

Building new? We'll go through your plans room by room.

STEP 02

Tell us about your home

This narrows down which products will work for you.
